

Narcan Wall Boxes Data Codebook

Metadata:

Original File Name:	"Narcan Wall Boxes, Orders + Refills.Gsheet" Within workbook titled: "Nalox Data" on Google Drive
File Type:	Google Spreadsheet (.Gsheet)
Ownership:	Department of Health (DOH)
Administrators:	John Doe (<i>DOH</i>)
Method of Collection:	John Doe manually enters data from paper, phone, email, online applications, or in-person. Community members or organizations have multiple methods of requesting Narcan wall boxes or refills for their organizations/establishments.
Frequency of Collection:	As needed. Data is only entered as requests are received and completed.
Variable Count:	23 in total (18 character variables, 2 date variables, 3 numeric variables)
Missing Values:	Recorded as "blanks."
Method of Acquisition:	Meghan Harris (PCRI) exports a copy of a filtered data set in the R programming language directly from the DOH Google Drive through the RStudio interface in the NaloxTrackDock.R or Narcantracking.R programs. This is done through the "Googlesheets4" package with Google ID authentication. <i>Login information for the DOH Google Account is required.</i>
Project and (Programs) Used In:	<ul style="list-style-type: none"> Naloxtrac Web Application (NaloxTracDock.R and Narcantracking.R)

Modified Versions:

Data Set Name	File Type	Modifications
Narcanboxkitmaster	RDS File (R Data)	De-identified and filtered.
Datechartcrosstab	CSV File (Comma-Separated Values)	De-identified, cleaned, filtered, and summarized by month and Narcan box amount.
Datechartcrosstab2	CSV File (Comma-Separated Values)	De-identified, cleaned, filtered, and summarized by month and Narcan kit amount.
Narcanboxkitprovided	CSV File (Comma-Separated Values)	De-identified, cleaned, filtered, and geoprocessed by individual location of boxes and kits provided.
